- IT Systems & Electronic Security Systems
- Movie and Music Servers

# Why Choose Us

Every client is unique and every project is different. Clients turn for many reasons but in most cases it distills down to one word “TRUST”.

## **Trust in our Experience**

The claim is based on the legacy inherited by us from our parent company which has vast experience of executing projects over a few decades. Close collaboration with architects/ PMC's and other agencies has given us valuable expertise that readily translates into another key area of trust.

## **Trust in our Solutions**

House of Tech provides 'One-stop-shop' technology solutions for luxury homes; leveraging our knowledge, we are able to create world class-solutions that incorporate more than the latest technology. There's tremendous value in designing innovative solutions that match your needs and functional requirement. To complement this portfolio, we provide services that tap into the experience base of our resources as designers/ engineers/ technicians.

## **Trust in our Results**

With the right mix of products and the people, we aspire to build a reputation for delivering the goods. Our priority is ensuring client's satisfaction.

# Services

## Automation Solutions

As the world gets more and more technologically advanced, we find new technology coming in deeper into our personal lives, even at home. Home automation is becoming more and more popular around the world and is becoming a common practice.

House of Tech offers tailor-made home automation solutions. This includes the integration & controlling of various systems installed in home such as multi-room entertainment, home theatre, fully automated and integrated sound, lighting, security, curtains, air conditioners, blinds etc.

### **This is your 'Home with a Brain'**

With a click of a button various themes can be activated, such as - 'welcome home', 'away', 'good night', 'movie time'.

# Audio Visual & Home Theatre Solutions

Depending on the size, volume and space of the room, House of Tech can customize and create a world class home theatre room for you and your family.

Combined with our automation solutions, music or movies can be played in any part of the room from the AV server from multiple formats and sources, including radio, streaming music services, your iPod/ Mp3 player, an external hard drive or a computer.

House of Tech can also bring a cinematic experience to your home. Our specialized home theatre seating and audio-visual systems offer you a realistic theatre experience.

Add theatre seating in rows to match with dramatic curtains for a 'cinema-feel' or go old school with 'lazy boys' for a more relaxed environment.

## Acoustic Treatment

Acoustic treatment comprises of internal treatment for absorption and noise/ impact isolation to achieve the desired reverberation time, which results in better speech and music intelligibility.

So go on! Watch the flight-scenes of the latest James Bond movie without waking your child up in the next room.

# General and Specialized Lighting

At House of Tech, we provide futuristic lighting controls that offer more than just clear visibility.

Be it pre-setting a mood or simple turning on and off at scheduled timings, our high-quality and customized solutions offers you full control with a touch of a button.

- Architectural/ façade lighting
- Architectural lighting control
- Leisure and entertainment lighting
- Stage lighting
- Lasers and effects lighting

## IT Systems & Electronic Security Systems

House of Tech has a comprehensive range of intelligent security and safety systems that offer surveillance solutions, electronic locks, intruder alarms, fire & carbon monoxide sensors, smoke sensors, closed circuit cameras, high-control access systems and IVR systems.

We are committed to provide you an efficient solution that not only offers a 24/7 safety but also helps deter unauthorized access or intrusions. Whether it is gaining remote access to your home in your absence, tracking the kid's activities or simply gaining control to monitor home devices, our seamless automation solutions are perfect for a secure living environment.

## Movie and Music Servers

We offer state-of-the-art servers which organize and store all your music, movies, blu-ray and DVD's in one centralized location that can be controlled or remotely accessed as suitable. Besides presenting stunning visuals, these offer high performance and seamless audio sound output.
